

ELTCOIN

ETHEREUM LIMITED TOTAL COIN

A HODLER's guide to ELTCOIN (a moon mission 🚀🌕)

nce upon a time...

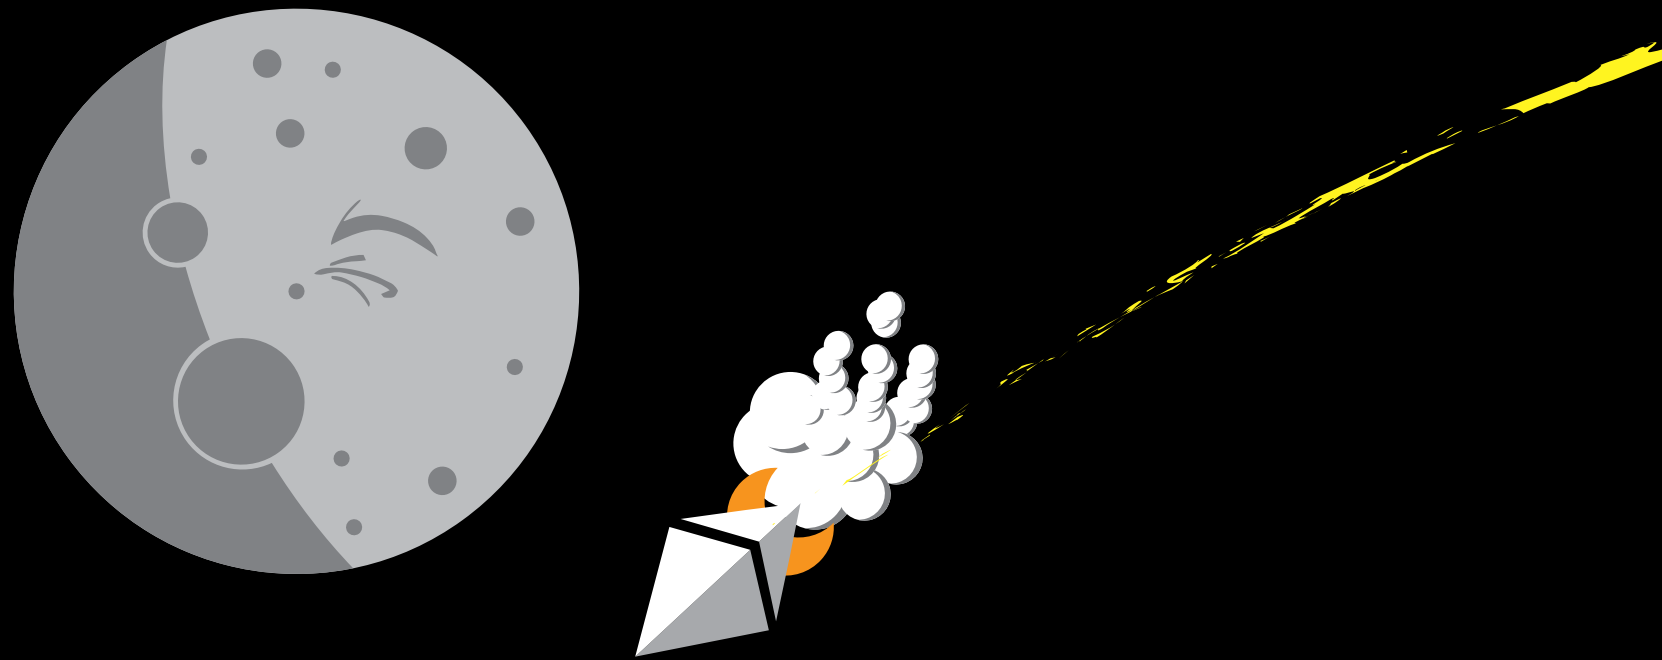

there was an e-coin craze on the Ethereum Network.

irst there was eBTC....

It sought to find Bitcoin's success by copying the limited total supply of 21M tokens within the Ethereum network, on the ERC-20 standard.

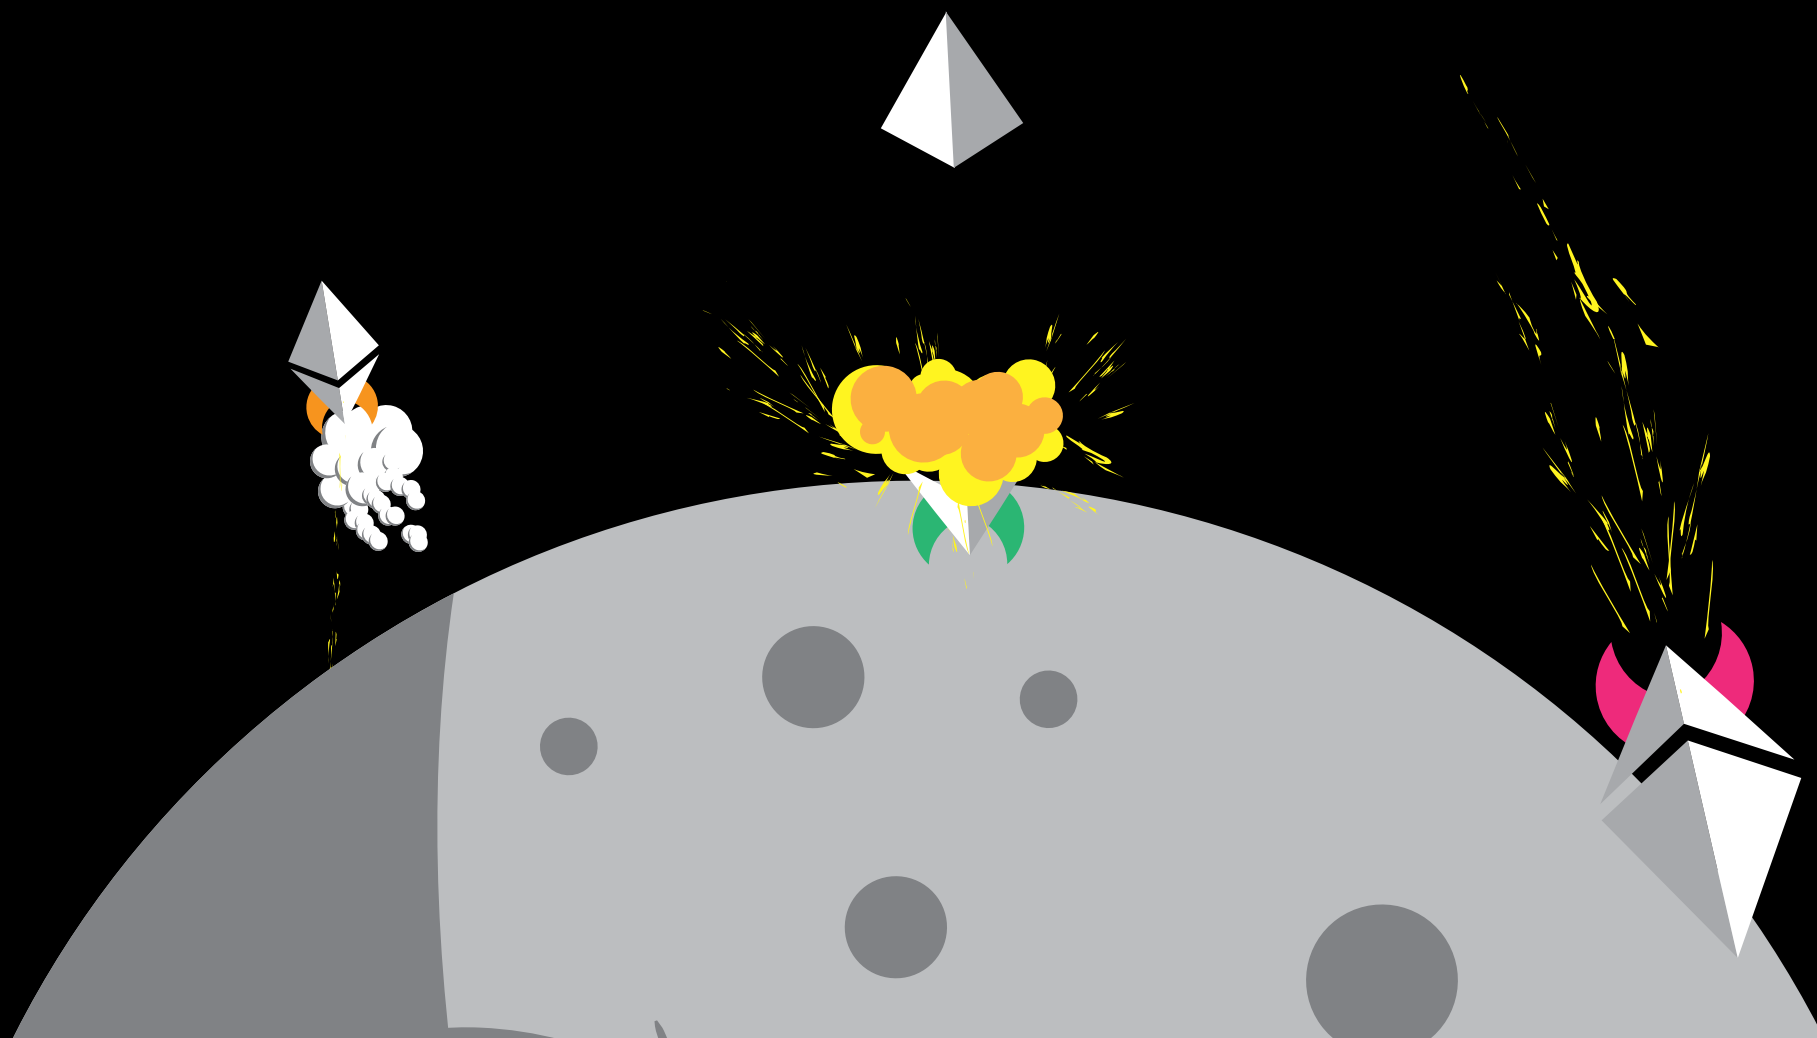

It was a failed moon mission.

Following in hot pursuit, there were a plethora of e-coins that all chased the same dream - all hoping to claim victory as the next e-coin to land on the moon.

But the rockets were not m00n spec.

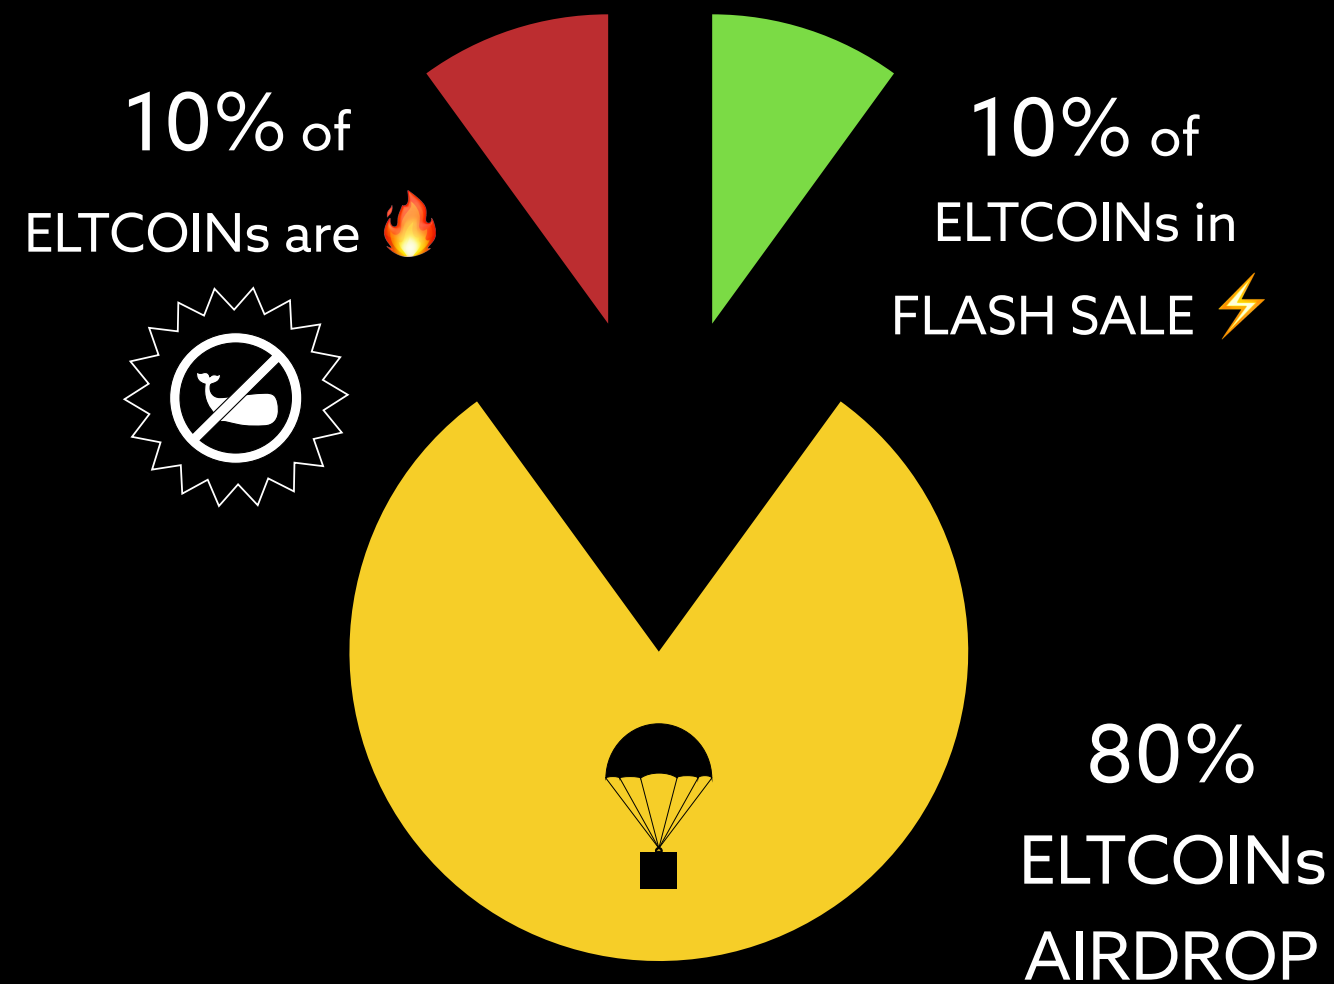

Enter ELTCOIN, the Ethereum Limited Total Coin.
The undisputed daddy of ERC-20 e-coins.
